OUR MISSION

Lynch Carpenter is a national law firm with a singular mission – to provide a voice to those who have been silenced by the disproportionate powers which too often exist in America. With lawyers based in Pittsburgh, San Diego, Los Angeles, Philadelphia, and Chicago, Lynch Carpenter has created an inclusive national community of like-minded legal talent to represent plaintiffs in complex litigation. Lynch Carpenter lawyers have developed strong collaborative working relationships with counsel throughout the nation and have been involved in numerous high-profile multidistrict litigation proceedings, frequently in leadership roles.

The Lynch Carpenter platform is self-made, without reliance upon the legacy of a long-established “repeat player” law firm, and is based upon the fundamental principle that input from a broad base of lawyers with diverse backgrounds, working together with mutual respect, will result in the strongest possible organization. The firm strives to provide equal opportunities for promotion and leadership to its attorneys and supporting professionals. Fourteen of the 23 Lynch Carpenter attorneys have been appointed to leadership positions in multidistrict or otherwise consolidated litigation, or in class-action matters involving financial fraud (including securities fraud, derivative actions, and lending fraud), data breach, privacy, consumer fraud, breach of contract, labor and employment, antitrust, and civil rights, in federal and state courts throughout the country.

Lynch Carpenter represents a wide variety of clients, including individual consumers and employees, small businesses, non-profits, issue advocacy groups, and governmental entities. Over the past ten years, Lynch Carpenter lawyers emerged as national leaders in data breach and privacy litigation, and in that time have negotiated or contributed to class recoveries totaling more than \$250 million in that sector alone. Along the way, the Lynch Carpenter team has generated seminal legal authority in both trial and appellate courts. For example, in 2018, as a direct result of Lynch Carpenter’s tenacious appellate advocacy, the Pennsylvania Supreme Court became one of the first state high courts to recognize that a common-law duty of reasonable care applies to the collection and storage of sensitive electronically-stored data. This landmark opinion, *Dittman v. UPMC*, 196 A.3d 1036 (Pa. 2018), paved the way for data breach victims to bring viable negligence claims against companies whose inadequate security practices allow major breach incidents to happen.

In October 2020, *The Legal Intelligencer* named Lynch Carpenter (under its predecessor name) “Litigation Department of the Year” for general litigation in Pennsylvania. In 2021, the firm was named as a finalist for Litigation Department of the Year in the Pennsylvania region by *The American Lawyer*. In 2022, the firm was named as a finalist for Privacy/Data Breach firm of the year by *ALM*. This year, the firm was named as a Pennsylvania Powerhouse by *Law360*. Several of its partners co-author the current edition of *Class Actions: The Law of 50 States* published by Law Journal Press. Lynch Carpenter’s attorneys are recipients of numerous additional individual awards, as described in more detail in the individual biographies on the firm’s website.

Lynch Carpenter continues to grow and establish itself as a leader in representing plaintiffs in complex litigation throughout the country. The firm remains committed to developing its younger lawyers and providing them with opportunities for professional growth, both inside and outside of the firm. In leading major complex litigation, the firm draws strength from its decentralized management structure, which fosters collaboration within the firm and enables the assembly of internal litigation teams for each case and epitomizes the synergistic benefits which result from a group of good lawyers working together to do good things.

Judge Lee appointed Katrina Carroll as Co-lead Counsel in this multidistrict litigation alleging that one of the world's biggest social media platforms captured, collected, and transmitted personal data from TikTok users and their devices without their consent and/or knowledge, including private information and biometric information within the meaning of the Illinois Biometric Information Privacy Act. In August 2022, a settlement for \$92 million received final approval.

In re Equifax, Inc. Customer Data Security Breach Litig., MDL 2800 (N.D. Ga.). The Equifax data breach compromised the nation's entire credit reporting system. More than 400 lawsuits filed by consumers and financial institutions were consolidated in the MDL. Gary Lynch was appointed co-lead counsel for financial institution plaintiffs. After significant dispositive motions practice and initial rounds of discovery, the parties negotiated a settlement of the financial institution class action that provides up to \$7.75 million in cash benefits, plus additional injunctive relief. The court granted final approval in October 2020.

In re Blackbaud, Inc. Customer Data Breach Litig., MDL 2972 (D.S.C.). In 2020, data security company Blackbaud, Inc. was target for a ransomware attack. A consolidated amended complaint was filed in July 2020, and in 2021 the district court denied the defendant's motion to dismiss the primary claims. In March 2023, the parties submitted for preliminary approval of a settlement that would provide up to \$37 million in relief for the class.

CONS. STAT. 5702 *et seq.* The Third Circuit rejected the defendants' attempt to establish a "direct party" exception to WESCA, which would have undermined the two-party consent requirement of the statute. The Third Circuit also confirmed that defendants bear the burden of proving a prior consent defense, and that the location of electronic interception of website communications under WESCA is at the point where software re-routes transmissions from a user's device, not where the Website Communications are ultimately received. The remanded case remains in litigation in the Western District of Pennsylvania.

In re Marriott International Customer Data Security Breach Litigation, MDL No. 2879 (D. MD.). Lynch Carpenter was appointed to the Plaintiffs' Steering Committee in this multidistrict litigation related to the data

This class action arose out of a malware installed on the point-of-sale systems of Wendy’s franchised restaurants for the purpose of capturing and ex-filtrating customer payment card data. Approximately 18 million payment cards were exposed. The United States District Court for the Western District of Pennsylvania consolidated several proposed class actions and appointed Lynch Carpenter as Co-lead Counsel on behalf of the plaintiff financial institutions. In November 2018, after three rounds of in- person mediation, Wendy’s agreed to pay \$50 million into a non-reversionary fund and to adopt and/or maintain certain reasonable safeguards to manage its data security risks. When the settlement received final approval in November 2019, the Honorable Maureen P. Kelly noted Class Counsel’s “national reputation,” “significant experience in these types of class actions and in data breach litigation,” and “high level of skill and efficiency.” Judge Kelly further explained:

This case has gone on for three and a half years...This was a very involved case and everyone brought to the table an incredible wealth of knowledge, was always prepared, really was thorough and professional in everything that was provided to the Court. And as involved as this case was, if every case I had was as well organized and professionally presented as this case has been, my life would be much easier... The briefs I got in this case and any filings were just so well-done and detailed. And my law clerks and I have discussed that a number of times. I want to thank counsel for the way you have conducted yourselves and the way you’ve all presented this case.

Dittman et al v. UPMC d/b/a The University of Pittsburgh Medical Center and UPMC McKeesport, Allegheny Cty., Pa. No. GD-14-003285; 196 A.3d 1036 (Pa. 2018). Lynch Carpenter represented several employees of the health care group UPMC in a class action stemming from a breach of UPMC’s personnel files. On November 21, 2018, the Supreme Court of Pennsylvania issued a landmark decision, reversing two lower courts, regarding the viability of common law negligence claims in the wake of a data breach. The Court found that UPMC engaged in affirmative conduct by collecting and storing employee data, and that general principles of negligence support holding actors to “a duty to others to exercise the care of a reasonable man to protect [others] against an unreasonable risk of harm to them arising out of the act.” As to the economic loss doctrine, the Court agreed with

Plaintiffs’ interpretation of Pennsylvania legal precedent on the issue, finding that the question of whether the economic loss doctrine applies necessarily turns on the “source of the duty alleged,” and, accordingly, a plaintiff may seek pecuniary damages under a negligence theory if the duty sought to be enforced arises independently of any contractual relationship between the parties. After remand to the trial court, additional motions practice, and initiating discovery, the parties reached a multimillion-dollar settlement that received final approval in December 2021.

Biscan v. Shields Health Care Group, Inc., 1:22-cv-10901-PBS (D. Mass). In re Arby’s Restaurant Group, 1:17-mi-55555 (N.D. Ga.). Gary Lynch argued in front of the Third Circuit after motions to dismiss were granted in favor of the University of Pittsburgh and Temple University. The District Courts held that students could not bring a breach of implied contract under Pennsylvania law, and must point to specific promises in writing. The Third Circuit reversed and remanded, adopting Mr. Lynch’s argument that nothing in Pennsylvania case law suggests implied contract claims brought by students are barred based on course of conduct and marketing material received by the students that tout the benefits of campus. The Third Circuit also reversed the District Courts’ dismissal of unjust enrichment in the alternative. The cases are currently pending in District Court.

When defendant served the plaintiff with a Rule 68 offer of judgment for “make whole” relief, the district court dismissed the case as moot. Gary Lynch successfully argued the appeal in the United States Court of Appeals for the Third Circuit, which held that the FLSA collective action did not become moot upon the plaintiff’s receipt of a Rule 68 offer of judgment for full satisfaction of her individual claim. The Supreme Court reversed in a 5-4 opinion, with Justice Kagan writing a strong dissent on behalf of our client—a position which was subsequently adopted by the majority of the Court in

Campbell-Ewald Co. v. Gomez, 577 U.S. 153 (2016). Plaintiff's position before the Supreme Court was supported by the United States as Amicus Curiae.
